■ Emollients – Liquid Butter

INCI NAME: BUTYROSPERMUM PARKII OIL

LIPEX[®] SheaClear[™]

This clear and low-spreading oil with moisturizing and conditioning benefits is ideal for creating translucent and transparent formulations.

Lipex SheaClear is a low-spreading oil that offers all the skin-softening and soothing benefits of shea butter in an easy-to-use, clear liquid form. It is suitable for low energy processing and for formulating all types of transparent and translucent cosmetic oil applications.

Recommended applications: all cosmetic applications

Appearance: slightly yellow liquid, clear at room temperature (25 °C)

Unsaponifiable content: 8%

Cloud point: 18 °C

Slip melting point: 12 °C

Certifications: China Compliant, Halal, Kosher, Vegan-friendly

Moisturizing

LIPEX[®] SheaClear[™]

Key features and benefits:

- Clarity at room temperature makes this ideal for skin, hair, and face oils where absolute transparency or low color is desired.
- It also makes Lipex SheaClear suitable for cold or low energy processing. However, if stored in cold conditions, heating may be required to remove precipitation.

Liquid shea saves time and energy compared to solid shea butters

Formulation suggestions:

SKIN CARE

Luscious Age-defying Oil Serum

AAK-15-280

Pure Start Dual Phase Cleanser

AAK-15-310

Shea Innovations Pampering Body Mist

AAK-19-002

HAIR CARE

Shea Clear Hair Oil

AAK-15-300

Typical use concentrations:

- 2–20% for skin care oils
- 1–20% for hair care oils
- 1–20% for shower oils
