INCI NAME: BUTYROSPERMUM PARKII BUTTER EXTRACT

LIPEX[®] SheaTris[™]

This shea butter triterpene ester concentrate effectively protects against environmental stress and premature skin aging.

Based on highly concentrated shea butter triterpene esters obtained through our advanced processing methods, Lipex SheaTris is a bioactive ingredient with documented skin protecting and anti-aging benefits. It delivers high functionality at levels as low as 0.5% and is suitable for all types of skin care formulations, including ultra-light textures.

Recommended applications: skin care and dermo-cosmetics

Appearance: thick, yellowish paste

Triterpene content: 50–65%

Slip melting point: 50 °C

Certifications: China Compliant, Halal, Kosher, Vegan-friendly

Revitalizing

LIPEX[®] SheaTris[™]

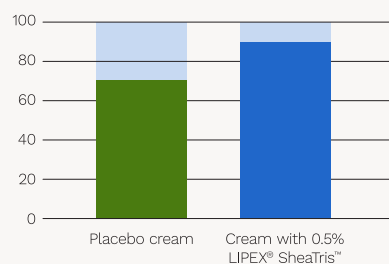

Key features and benefits:

- Lipex SheaTris contains a high content of triterpene esters, renowned for their skin-protecting, soothing, and revitalizing properties.
- Studies show that Lipex SheaTris:
 - Strengthens the skin barrier function to improve moisture retention and protect against environmental aggressors.
 - Protects skin against collagen degrading enzymes.
 - Reduces the activity of pro-inflammatory cytokines linked to premature aging.
- The triterpenes in Lipex SheaTris also have the potential to reduce skin damage caused by urban pollution. Tests confirm Lipex SheaTris effectively protects skin against different types of inflammatory mechanisms caused by exposure to urban dust, chemical, and UV stress.

LIPEX[®] SheaTris[™] protects skin collagen structures and fights premature skin aging
